

Dear Phil & Rose,

Thank you for the beautiful job you did on the house! I know the kitchen floor was difficult because of the complicated layout, but it's perfect & looks so great in the laminate you recommended.

I have to share with you how overjoyed I was with the carpeting. I know Berber isn't the easiest carpet to lay and Berber with a design is even tougher, but the whole house just flows. Phil never lost the design flow & there is not one seam that can be detected... and you know how I am about seams! What a terrific job!

I just needed to let you know how very pleased I am with everything you did & to let you also be aware that I am recommending you to all my friends as the only choice for floor coverings!

Thanks again,

Sincerely,

Peggy Matter
